MEMORANDUM FOR: Executive Secretary, CIA Career Council

SUBJECT : Career Council Coordination of [REDACTED] "Training at Non-CIA Facilities under Public Law 110"

25X1A

REFERENCE : Memo to DTR fm Executive Secretary, dtd 27 Jan 58, subject as above

25X1A

1. Attached is a redraft of [REDACTED] "Training at Non-CIA Facilities under Public Law 110." It is forwarded for coordination in the Council as suggested in your memorandum of 27 January 1958.

2. I believe the redraft will satisfy earlier comments except for three points upon which DD/P and this Office have not been able to agree. These are:

a. DD/P's belief that the phrase "officers or employees" as used in paragraph 1a(1) should be changed to "employees" only, with a recommended additional paragraph as follows:

"In the application of this regulation, the term 'employees' will be understood ordinarily to mean staff employees, staff agents, career agents and contract employees. However, its provisions may also be applicable to contract agents and detailed personnel if the interest of the Agency would thereby be served."

The phrase "officers or employees" is used in Public Law 110, has been defined by the General Counsel, and has been operative guidance for a number of years. I believe the suggested additional paragraph provides no further interpretation than is inherent in the phrase itself. In addition, the DD/P proposal is not fully consistent with the General Counsel's definition;

Non-CIA Facilities under Public Law 110"

25X1A

b. DD/P's desire to have its responsibilities with regard to cover spelled out in more detail. I believe that paragraph 2e clearly and succinctly restates DD/P's responsibility for cover as it relates to external training in language similar to that of the existing [REDACTED]. A full statement of DD/P's cover responsibilities is already available in the form of Agency Regulation [REDACTED] and

25X1A

25X1A

c. DD/P's position regarding the need for procedures in the Regulation. I believe that paragraph 3 of the attached draft is sufficient, and is in line with the Council's desire to eliminate procedural detail from regulations.

MATTHEW BAIRD
Director of Training
